

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at <http://about.jstor.org/participate-jstor/individuals/early-journal-content>.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

CONTENTS.

	PAGE
American Antelope, or Prong Buck, The.....	<i>J. D. Caton</i> 183
American Zoölogy, A Century's Progress in.....	<i>A. S. Packard, Jr.</i> 581
Ancient Ruins in Southwestern Colorado..... 81
Ancient Sceptre, An.....	<i>C. C. Abbott</i> 673
Animal Humor.....	<i>Samuel Lockwood</i> 257
Antiquity of the Indians of North America, Indications of the, derived from a Study of their Relics.....	<i>C. C. Abbott</i> 65
Aquaria: their Past, Present, and Future.....	<i>William Alford Lloyd</i> 611
Are Potato Bugs Poisonous?.....	<i>Aug. R. Grote and Adolph Kayser</i> 205
Are we drying up?.....	<i>J. D. Whitney</i> 513
Autochthon, Traces of an American.....	<i>C. C. Abbott</i> 329
Bartramian Names in Ornithology, The Availability of certain.....	<i>J. A. Allen</i> 12
Bastian and Pasteur on Spontaneous Generation.....	<i>Henry J. Slack</i> 730
Bees and Ants, Lubbock's Observations on..... 148
Black Knot, The.....	<i>W. G. Farlow</i> 341
Botany, University Instruction in.....	<i>W. G. Farlow</i> 287
Burs in the Borage Family.....	<i>Asa Gray</i> 1
California Garden Birds.....	<i>J. G. Cooper</i> 90
Carnivorous Plants.....	<i>W. J. Beal</i> 588
Cave Beetles of Kentucky, The.....	<i>A. S. Packard, Jr.</i> 282
Chirp of the Mole Cricket, The.....	<i>Samuel H. Scudder</i> 97
Colony of Butterflies, A.....	<i>Aug. R. Grote</i> 129
Colorado, Explorations in, under Professor Hayden in 1875..... 161
Cooper's Helix in Colorado.....	<i>E. A. Barber</i> 529
Cosmopolitan Butterfly, A.....	<i>Samuel H. Scudder</i> 392, 602
Deer, A New Californian.....	<i>J. D. Caton</i> 464
Destruction of Birds by Telegraph Wire, The.....	<i>Elliott Coues</i> 734
Evolution, The Progress of Discovery of the Laws of.....	<i>E. D. Cope</i> 218
Exploration of a Mound in Utah.....	<i>E. Palmer</i> 410
Florida Chameleon, The.....	<i>S. Lockwood</i> 4
Flounders, The Development of.....	<i>Alexander Agassiz</i> 705
Former Range of some New England Carnivorous Mam- mals, The.....	<i>J. A. Allen</i> 708
Game Falcons of New England, The: The Goshawk.....	<i>W. Wood</i> 132
Germ's, Professor Tyndall on..... 347
Gooseberries, Our Wild.....	<i>Asa Gray</i> 270
Guadalupe Island, Lower California, The Flora of.....	<i>Sereno Watson</i> 221
Haeckel's Gastræa Theory.....	<i>Alexander Agassiz</i> 73
Harvard Summer School of Geology, The.....	<i>N. S. Shaler</i> 29
House Fly, The.....	<i>A. S. Packard, Jr.</i> 476
House Plants, Hygiene of.....	<i>George H. Perkins</i> 667
Io and its Habits.....	<i>James Lewis</i> 321
Johnny Darters.....	<i>D. S. Jordan and H. E. Copeland</i> 335
Jumping Seeds and Galls.....	<i>C. V. Riley</i> 216
Kerguelen Island, The Natural History of..... 481
Lake Wakatipu, New Zealand.....	<i>H. C. Russell</i> 385
Little Missouri "Bad Lands".....	<i>J. A. Allen</i> 207
Lobster, The: Its Structure and History.....	<i>J. S. Kingsley</i> 896
Microscopes at the Loan Collection of Scientific Appara- tus of the South Kensington Museum.....	<i>John Nichols</i> 532

Microscopy at the International Exhibition.....	<i>R. H. Ward</i>	725
Mimicry in Butterflies explained by Natural Selection....	<i>F. Müller</i>	534

RECENT LITERATURE.

A Few Suggestions on Tree-Planting, 295; Anderson's Mandalay to Momien, 361; Anderson's Norse Mythology, 229; Appalachia, 622; Archives of the National Museum of Brazil, 623; Baird's Annual Record of Science for 1875, 423; Botanischer Jahresbericht, 296; Brinton's Myths of the New World, 365; Caton's Summer in Norway, 39; Cook's Manual of the Apiary, 621; Cope's Check-List of North American Batrachians and Reptiles, 105; Darwin's Movements and Habits of Climbing Plants, 171; Davies' Preparation and Mounting of Microscopic Objects, 739; Dichogamy in Plants, 42; Die Pflanzenwelt Norwegens, 295; Edwards's Butterflies of North America, 108; Fritsch's Birds of Europe, 435; Hassard's Floral Decorations, 298; Hayden's Report on the Geology of Colorado, 423; Hentz's Spiders of the United States, 170; Huxley and Martin's Biology, 228, 739; Johnson's Cyclopædia, 362; Jordan's Manual of the Vertebrates of the Northern United States, 739; Kidder's Natural History of Kerguelen Island, 105; Kneeland's American in Iceland, 296; Manton's Taxidermy, 623; Marschall's Nomenclator Zoologicus, 169; Morse's First Book of Zoology, 170; Orton's Andes and the Amazon, 682; Orton's Comparative Zoology, 550; Pickering's Elements of Physical Manipulation, 422; Powell's Exploration of the Colorado, 102, 736; Quarterly Bulletin of the Nuttall Ornithological Club, 425; Recent Books and Pamphlets, 43, 109, 171, 230, 298, 366, 425, 487, 551, 623, 683, 740; Recent Contributions to North American Mammalogy, 362; Recent Memoirs of North American Mammals, 423; Riley's Eighth Report on the Noxious Insects of Missouri, 435; Sach's History of Botany, 107; Sach's Text-Book of Botany, 37; Scudder's Fossil Butterflies, 106; The Geological Record for 1874, 362; The Octopus, 108; The Zoological Record, 106; The Zoological Record for 1874, 486; Two Years in California, 621; Wheeler's Geology of the United States west of the One Hundredth Meridian, 622; White's Natural History of Seiborne, 229; Wilson's Prehistoric Man, 682; Wyman's Fresh-Water Shell-Mounds of the St. John's River, Florida, 165.

GENERAL NOTES.

Botany.—Æstivation of the Fuchsia, 110; Alfred W. Bennett on the Growth of the Flower-Stalk of the Hyacinth, 683; Alpine Plants of the White Mountains, 745; Anthers in Trillium, 427; Aplectrum with Coral-like Root, 370; Arbeiten des Botanischen Institut in Würzburg, 301; Arrested Growth and Persistence of *Barbula ruralis*, 366; *Astragalus Robbinsii* Gray, 172; Botanical Papers in Recent Periodicals, 46, 113, 174, 235, 300, 371, 428, 492, 555, 625, 687, 745; Botanical Prizes, 174; Botany of California, Vol. I., 624; *Calluna vulgaris*, the Ling or Heather, rediscovered in Massachusetts, 489; *Chellanthus Alabamensis*, 44; Dichogamy in *Epilobium angustifolium*, 43; Dimorphism in Claytonia, 44; Eccentricity of the Pith of *Rhus toxicodendron*, 232; Exotic Plants around San Francisco Bay, 110; Fungi heaped up in Pines by Squirrels, 112; Heteromorphism in *Epigæa*, 490; Influence of Light and Heat on Transpiration in Plants, 623;

Influence of Temperature on the Germination of Pine-Seeds, 624; Insectivorous Plants, 111; Large Elm, 489; New Classification of Cryptogams, 178; Notes on Acnida, 487; Notes on Alpine and Subalpine Plants in Vermont, 731; On the Hygroscopic Mechanism by which certain Seeds are enabled to bury themselves in the Ground, 367; On the Rate of Movement of Water in Plants, 299; Origin of High Hydrostatic Pressure in Vegetable Cells, 45; *Preissia commutata*, 110; Rate of Growth of Agave Scapes, 300; Researches in regard to Growth, 370; *Rhynchospora capillacea* var. *levistata*, 370; *Schœnolirion* Torr., 426; *Schœnolirion*, Appendix, 552; Sets of Named Fungi, 174; *Sedum reflexum* L., 553; *Sequoia sempervirens*, 110; Spores of *Blodgettia confervolata*, 428; The Hollyhock Puccinia, 44; The Influence of Light on the Color of Flowers, 299; The Life-History of Moulds, 112; The Nutrition of Plants, 744; The Plantain indigenous in Southern Colorado, 230; The Potato-Blight, 172; The Primordial Utricle, 45; The Relative Fertility of Cross-Fertilization and Self-Fertilization, 744; The Teeth of Green Leaves as Organs for the Secretion of Nectar, 300; The Two Bitter-Sweets, 743; The Wild Flowers of North America, 113; *Tolmiea Menziesii*, 300; Tropical Trees during the Dry Season, 231; "Twines with the Sun," 174; *Vallisneria spiralis*, 110; Vitality of Seeds, 230.

Zoölogy. — A Gorilla in England, 627; A Snake-Eating Snake, 178; A Spider Fisherman, 688; A True "Snake Story," 493; Another Case of Animal Commensalism, 429; Are Potato Beetles Poisonous? 303; Bartramian Names again, An Explanation, 176; Bears and Panthers on the Pacific Coast, 177; Bewick's Wren, 47, 237; Breeding Range of the Snow-Bird, 114; Corals and Coral Islands, by James D. Dana, 378; Early Nesting of the Anna Humming-Bird, 48; Egg of *Chionis*, 628; Eggs of Boa-Constrictor, 239; Eyes and No Eyes, 178; Flowers of the Golden Currant perforated by Humblebees, 238; Geographical Variation among North American Mammals especially in respect to Size, 625; Habits of the White-Footed Mouse, 555; Habits of Western Birds, 238; Homologies of Mammalian Teeth, 115; Intelligence in the Hawk Moth, 50; Mayer's Ontogeny and Phylogeny of Insects, 688; New Shells from Colorado, 745; Notable Change of Habit of the Bank Swallow, 372; Note on the Blue Goose, 374; Occurrence of Maggots in a Boy, 374; Pelicans in San Francisco Bay, 177; Perforation of Orange Skins by Moths, 50; Protective Resemblance in the Yellow-Bird, 115; Range of the Bay Ibis, 48; Remarkable Habits of a Tree-Frog, 178; Remarkable Structure of Young Fishes, 239; Sensitiveness to Sound in the Shrew, 430; Shells of Kerguelen Island, 116; Small Birds caught by the Burdock, 239; Swedish Podurans, 375; "The Bank Swallow" again, 493; The Bluebird feeding on *Ampelopsis*, 556; The Chapparral Cock, 373; The Cotton Worm, 303; The Crossbill breeding at Riverdale, N. Y., 237; The Extinction of the Great Auk at the Funk Islands, 48; The European Tree Sparrow in the United States, 50; The European Woodcock shot in Virginia, 372; The Green Snake in New Mexico, 494; The Labrador Duck, 303; The Little White Egret in Colorado, 430; The Nature of Monads, 688; The Pilot Fish, 687; The Sea-Lions, 177; The "Sisco of Lake Tippecanoe," 373; Unusual Nesting Sites of the Night Hawk and Towhee Bunting, 239.

Anthropology. — Aboriginal (?) Gun-Flints, 691; American Archæology, 181; An African Potter at her Work, 629; An Indian Rock-Shelter in Lancaster County, Pennsylvania, 241; An Interesting "Find" of Indian Relics, 375; Anthropological News, 377, 433, 496, 556, 692, 748; Anthropological Notes, 179, 240, 304; Antiquity of Man, 51; Indian Graves in New Jersey, 52; Jasper War-Club Teeth, 116; Notes on the Stone Implements from Arkansas, at the Philadelphia Exhibition, 494; Occurrence of the Patoo-Patoo in North America, 558; Opening of a Royal Burial Mound in Denmark, 117; Stone Implements from Ohio at the Philadelphia Exhibition, 495; The Tasmanians, 242; Were the Oldest American People Eskimos? 432; Western-worked Flakes, and New Jersey Rude Implements, 431.

Geology and Palæontology. — A Carnivorous Reptile about the Size of a Lion, 560; A Fossil Sirenian Animal in Jamaica, 117; A Fossil Skunk from the Bone Caves of Pennsylvania, 499; Comstock's Geology of Wyoming, 52; Cope's Cretaceous Vertebrates, 53; Cretaceous Vertebrates of the Upper Missouri, 750; Explorations by Wheeler's Survey, 498; Extinct Coral Reef at Bahia, 499; Fossil Vertebrates of New Mexico, 54; Geological Survey of Canada, 560; Geology of New Caledonia, 118; Gigantic Mammals of the Rocky Mountains, 305; Hot Springs and Geysers, 242; Hyatt's Fossil Ammonites, 53; Icebergs off the Coast of Newfoundland, 559; Ice-Marks in Newfoundland, 694; Kerr's Geology of North Carolina, 53; Meek's Invertebrate Fossils of the Upper Missouri, 499; More Fossil Birds, 561; Mountain-making, 192; Palæontology and the Doctrine of Descent, 694; Powell's Geology of the Uinta Mountains, 751; Recent Discoveries of Extinct Animals by Professor Marsh, 436; Recent Views in Geology, 559; Scudder's Fossil Butterflies, 53; The Brain of the *Dinoceras*, 182; The Earliest Edentates, 117; The Fossil Plants of America, 53; The Mechanism of Stromboli, 245; The Mountains of New Zealand, 247; The *Tæniodonta*, a new Group of Eocene Mammals, 379; The Walrus formerly in South Carolina, 561; Winchell's Geology of the Black Hills, 53.

Geography and Exploration. — African Travel, 55; Ancient Geographers, 306; Arctic Stations, 56; Cameron's Discoveries in Africa, 441; Cameron's Explorations in Tropical Africa, 247; Circumnavigation of Lake Albert Nyanza, 562; Exploration in New Guinea, 502; Exploration of the Upper Madeira Plate, 183; Exploring Expeditions in Greenland, 629; Extracts from Stanley's Last Letters from Central Africa, 695; Inundation of the Sahara, 307; Is it possible to unite the

Black Sea and the Caspian? 306; Map of Prehistoric Ruins in Colorado, 307; Mexican Migrations, 120; Mount St. Elias, 124; News from Stanley, 561; Nordenskiöld's Arctic Expedition, 55; Peruvian Geography, 379; Pictures of Yunnan, 119; Recent Rise of the Peruvian Coast, 380; Resources of the Black Hills, 501; Return of the British Arctic Expedition, 751; Siberian Exploration, 501; The Aleutian Islands, 184; The Himalayas and their Glaciers, 55; The Isthmus of Tehuantepec, 500; The Kybale Race, 119; The New Route to China, 752; The Pacific Coast of America, 55; The Swedish Expedition to Novaya Zemlya, 119; The Tundras of Siberia, 118; United States Coast and Inter-oceanic Surveys, 118; Wheeler's Reconnaissance of Southern Nevada, 55.

Microscopy. — A Compact Collecting Case, 503; A Double Staining with Hæmatoxylin and Aniline, 56; A New Fungus, 631; A Polariscopes Object, 123; A Remarkable Forage for Bees, 122; Action of Poison on Blood, 443; Amateur Microscopes, 120; American Microscopical Societies, 309; American Postal Micro-Cabinet Club, 185; An Easy Nitzschia, 566; Animal and Vegetable Cellulose and Starch, 565; Aperture of an Objective, 442; Aperture of Objectives, 566; Arranged Pollens, 565; Arranging Diatoms, 502; Bliven's Photographs, 442; Blood Globules in Typhoid Fever, 122; Boston Microscopical Society, 381; Collecting Diatoms, 567; Comparative Photographs of Blood, 318; Cryptogamic Parasites, 122; Diatoms as Fertilizers, 754; Double-Stained Muscular Fibres, 630; Eccentric Pith of Climbing Plants, 58; Effect of Aperture on Definition, 565; Exchanges, 253, 308, 443, 754; James W. Queen & Co., 122; Kinne's Turn-Table, 308; Micro-Photographs in Histology, 753; Micro-Photography, 567; Microscopy, 503; Microscopy at the American Association, 630; Microscopy of the American Association, 184; Microscopical Examination of Crude Drugs, 565; Mode of Production of Microscopical Images, 252; New Adjustment for Cox's Turn-Table, 311; Oxalide of Asparagine, 443; Photographing the Nineteenth Band, 566; Photo-Micrography, 631; Polarization of Living Tissues, 502; Polarizing Crystallizations, 309; Popular Microscopy, 566; Practical Histology, 568; Raphides in Enchanter's Nightshade, 123; Recognition of Wool in Mixed Fabrics, 563; "Rusty Gold," 308; San Francisco Microscopical Society, 307; San Francisco Society, 442; Sonorous Sand, 253; The Leeuwenhoek Medal, 311; The Limits of Microscopic Vision, 380; The Richmond Fossil Earth, 753; Tyndall Association, 253; Use of Carbolic Acid in Mounting, 57; Van der Weyde's Oblique Illuminator, 752; Volatilized Gold, 754; Water Analysis, 567; Wythe's Amplifiers, 503; Wythe's Illuminator, 442.

SCIENTIFIC NEWS, 58, 123, 186, 254, 312, 381, 444, 504, 568, 631, 699, 754.

PROCEEDINGS OF SOCIETIES, 60, 125, 188, 255, 315, 382, 445, 507, 570, 632, 703, 757.
